Training Equipments | Sticks, Hoops, Clubs, Rhythmic and Medicine Balls, Ribbons and Tamburellos

Compact medicine ball made of soft rubber in various weights and sizes

Medicine balls available in 5 different weights, from 1 to 5 kilograms.

The weight is concentrated in a compact volume; filled exclusively with water; the soft rubber surface (high-quality PVC) provides good grip control.

They are ideal for sports training, fitness, and rehabilitation use.

Thanks to their elasticity, they are safe to use on any kind of floor or surface.

Made in Italy.
