Monotubular Volleyball and Minivolleyball Systems

CERTIFIED UNI EN 1271

Monotubular volleyball system, in accordance with F.I.P.A.V. regulations, aluminum, oval post 120x100mm, UNI-EN 1271 certified.

Art. 5009

Single-post volleyball system in accordance with F.I.P.A.V. regulations with manually adjustable sliding mechanisms for positioning the net.

Our system complies with the functionality and safety requirements of the UNI-EN 1271 standard and corresponds to type 1 "with ground sockets/fixings" and class B "club level competitions" (national federation rules).

System consisting of poles made with oval section aluminium profile 100x120mm with internal ribs, with internal joints and reinforcements in thick special alloy aluminum 6005.

All net adjustment mechanisms are inside the pole, making the system completely safe.

Fixed to the floor using cemented sockets.

Manual sliding mechanisms with handwheel closure for adjusting the height of the net and self-braking winch with strap and removable crank for adjusting the tension of the net.

Complete with sockets and socket caps for fixing to the floor.

Metallic gray paint finish and equipped with snap hooks for attaching the net.

Available: wide selection of nets (visit the ‘Nets and Accessories for Volleyball and Minivolley Systems’ section).

Available: pair of system protection pads (item 5411).

Visit our ‘Volleyball and Minivolleyball Systems’ section for more information.
