Other Basketball or Mini-basketball Systems

Half basketball or mini-basketball system, fixed with sockets, freespace 60cm, 112x73cm backboard, model School.

Art. 4231

Half monotubular basket system, freespace 60cm, fixed with sockets.

Single structure consists of a galvanised steel support pole with a round section measuring Ø70mm in diameter and 3mm in thickness, which is fixed with ground sockets with a special insert to prevent the pole from twisting; the pole supports an articulated frame that allows the position of the backboard and basket to be moved to the desired height for basketball or mini-basketball, using a worm screw.

The unit is completed with an American-style (oval) 112x73cm thermoset plastic backboard which is highly resistant and fully ribbed on the back to reinforce its solidity, including the basket ring and net (item 4056).
Bar for regulate the hoop height included.

The unit has a 60cm extension and is height adjustable from 100 to 305cm.

All components are supplied disassembled to facilitate transport, during assembly you can choose the desired playing height minibasket / basket.

Visit our "Basketball and Mini-basketball Systems" section for more information.
Visit our "Accessories for Basketball and Mini-basketball Systems " section for more information about backboards, basket rings, nets, protections and more.
