Equipment for Field Maintenance and Barrier Network

Extensible tunnel, changing room entrance/exit, various extensions.

Art. 6490

Extensible tunnel designed specifically for players entering the field in stadiums and sports arenas.

The design is customised and normally involves the use of silver arched aluminium profiles with galvanised and painted tubular metal crosses, PVC top cover and nylon handles for quick opening, on Ø100mm diameter nylon wheels.

Length on request.

Visit our 'Balls, Training Equipments and Other Accesories for Football and Futsal' section for more information.
