# Football And Futsal Goal Nets

Regulation football and futsal goal nets, made of nylon, polyethylene or polypropylene, for all sizes, wide variety of wire diameters and mesh types.

All nets are treated to provide the best resistance to atmospheric agents and UV rays, guaranteeing elasticity, impact and abrasion resistance to ensure durability and long life.

For the correct choice, consider the upper and lower dimensions of the net on the back of the goal.

# Professional Scoreboards

Professional multisport scoreboard, suitable for basketball, volleyball, futsal, handball, hockey, tennis, etc.

30 cm high digits to ensure visibility up to a distance of 130 m and a reading angle of 150 degrees.

We recommend installation in medium to large sports halls.

With game time display (00:00 - 99:59), team scores (0-199), period (0-9), bonus and timeout (using illuminated dots with a diameter of Ø8cm), and arrows indicating possession/serve/turn.

The control console (item 8485, not included) can set various operating modes depending on the selected sport: game and interval times, forward or backward counting, display of tenths of a second in the last minute of play, display of the time of day, etc.

Equipped with an integrated horn that allows manual and automatic emission of a loud acoustic signal (120dB at 1m) at the end of the time, adjustable in duration and intensity.

Power supply 100-240Vac, 50-60Hz (the type of power cable plug can be selected when ordering).

Control via command console (item 8485, not included), connectable via the supplied 50 m serial cable or optional radio receiver (item 8489), which saves on cabling costs.

# Semi-Professional Scoreboards

Semi-professional multisport scoreboard, suitable for basketball, volleyball, futsal, handball, hockey, tennis, etc.

15-25 cm high digits to ensure visibility up to a distance of 110 m and a reading angle of 150 degrees.

We recommend installation in small to medium-sized sports halls.

With game time display (00:00 - 99:59), team scores (0-199), period (0-9), team fouls or sets won (0-9), possession/serve/turn and timeouts using illuminated dots.

Clock function to display the time even when the console is disconnected.

The control console (item 8485, not included) can set various operating modes depending on the selected sport: game and interval times, forward or backward counting, display of tenths of a second in the last minute of play, display of the time of day, etc.

Equipped with an integrated horn that allows manual and automatic emission of a loud acoustic signal (120dB at 1m) at the end of the time, adjustable in duration and intensity.

Power supply 100-240Vac, 50-60Hz (the type of power cable plug can be selected when ordering).

The scoreboard must be used in conjunction with the control console (item 8485, not included), which communicates with the scoreboard via radio at 2.4GHz in FHSS (Frequency Hopping Spread Spectrum) mode, with spread spectrum and frequency hopping to avoid interference. Radio communication avoids the cost of laying a connection cable between the console and the scoreboards (optional cable available when ordering).

Technical instructions in 5 languages. Supplied with brackets and plugs for wall mounting.

Each display can be used together with other models to create large displays showing multiple information.

# Semi-Professional Scoreboards

Semi-professional multisport scoreboard, suitable for basketball, volleyball, futsal, handball, hockey, tennis, etc.

15-25 cm high digits to ensure visibility up to a distance of 110 m and a reading angle of 150 degrees.

We recommend installation in small to medium-sized sports halls.

With game time display (00:00 - 99:59), team scores (0-199), period (0-9), team fouls or sets won (0-9), possession/serve/turn and timeouts using illuminated dots.

Clock function to display the time even when the console is disconnected.

The control console (item 8485, not included) can set various operating modes depending on the selected sport: game and interval times, forward or backward counting, display of tenths of a second in the last minute of play, display of the time of day, etc.

Equipped with an integrated horn that allows manual and automatic emission of a loud acoustic signal (120dB at 1m) at the end of the time, adjustable in duration and intensity.

Power supply 100-240Vac, 50-60Hz (the type of power cable plug can be selected when ordering).

The scoreboard must be used in conjunction with the control console (item 8485, not included), which communicates with the scoreboard via radio at 2.4GHz in FHSS (Frequency Hopping Spread Spectrum) mode, with spread spectrum and frequency hopping to avoid interference. Radio communication avoids the cost of laying a connection cable between the console and the scoreboards (optional cable available when ordering).

Technical instructions in 5 languages. Supplied with brackets and plugs for wall mounting.

Each display can be used together with other models to create large displays showing multiple information.
