Other Volleyball and Minivolleyball Systems

Monotubular volleyball system, transportable on ballasted base with wheels and round pole with a diameter of Ø70mm.

Art. 5022

Monotubular volleyball system on base with wheels.

Item consisting of a pair of weighted bases and poles equipped with sliders to position the net at a height between 155 and 250 cm, allowing for volleyball, mini-volleyball and super mini-volleyball to be played.

The base is made of painted steel in a round safety tube, already weighted, equipped with a provision for safety fixing to the ground and Ø80mm wheels for easy transport; dimensions 105x120cm.

Galvanised steel tube with a diameter of Ø70x3mm and a length of 3m, to be tightened to the base using handwheels.

Manual sliding mechanisms in galvanised steel with handwheel closure for adjusting the height of the net and net tensioner with strap for adjusting the tension of the net.

Weight: base more pole 75kg approximately, system 150kg approximately.

All components are supplied disassembled to facilitate transport.

Available: wide selection of nets (visit the 'Nets and Accessories for Volleyball and Minivolley Systems' section).

Visit our 'Volleyball and Minivolleyball Systems' section for more information.

Visit our 'Accessories for Volleyball and Minivolleyball Systems' section for more information about nets, protective covers and more.
