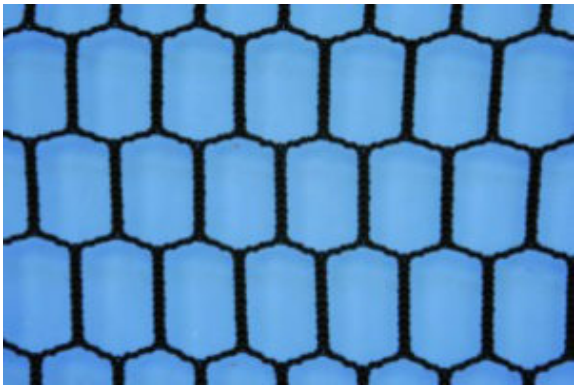
Tennis Systems and Nets

Tennis net, dimensions 12,80x1m, polyethylene diameter Ø2,5mm, hexagonal mesh 45mm, knotless, with headband.

Art. 7520



High-density polyethylene tennis net, UV resistant, thermo-fixed, water-repellent.

Knotless with an hexagonal mesh and top band, made of high-tenacity white polyester, 50mm wide.

Comes complete with a Ø5mm dyneema cable (a synthetic fibre made from polyethylene, particularly suitable for the manufacture of high-tensile cables).

Buckle for centre of net not included.

Visit our ‘Tennis" section for more information.

Caratteristiche:
