Control. The scoreboard must be used in conjunction with the control console (item 8485, not included), which communicates with the scoreboard via radio at 2.4GHz in FHSS (Frequency Hopping Spread Spectrum) mode, with spread spectrum and frequency hopping to avoid interference. Radio communication avoids the cost of laying a connection cable between the console and the scoreboards (optional cable available when ordering).

The horn can be sounded manually or automatically when the time expires, producing a strong acoustic signal (120dB at 1m) with adjustable duration and intensity.

Clock function to display time of the day, also with unplugged console.

Easy to install. Technical instructions in 5 languages. Provided with bolts and brackets for wall mounting.
