Equipment for Field Maintenance and Barrier Network

Plifix synthetic grass implant for line marking, pack of 25 markers.

Art. 6026

Tool for marking out the ground using synthetic grass fibres.

The stable and durable Plifix marking aids are simply pushed into the ground, permanently marking all important boundary points. This eliminates the need for repeated measurements and marking errors.

Pack of 25 markers.

Ideal for marking sports fields and gardens.

Visit our 'Balls, Training Equipments and Other Accesories for Football and Futsal' section for more information.
