Balls and Equipment for Training and Playing Football and Futsal

3-sided wall rebounder simulator measuring 150x50cm, made of wood.

Art. 6485

Triangular rebounder wall simulator made of marine plywood with slots for transport.

Side dimensions: length 150cm, height 50cm.

When used in a vertical position, it can be used to determine the upward trajectory of the ball in order to improve the fundamentals of the game.

Visit our 'Balls, Training Equipments and Other Accesories for Football and Futsal' section for more information.
