Statistics Panels for 12/14 Players

Pair of side statistics panels (side displays) for 12/14 players per team, for professional scoreboards.

Suitable for basketball, volleyball, futsal, handball, etc.

With player jersey number display (0-99) and indication of fouls/penalties via illuminated dots with a diameter of 3.2 cm.

Built in accordance with FIBA regulations.

15 cm high digits to ensure visibility up to a distance of 70 m and a reading angle of 150 degrees.

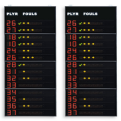

Controlled via the control console (item 8485, not included) and equipped with a 4m serial cable for connection to the main scoreboard (see the 'Professional Scoreboards' section) or to a radio receiver (item 8489, not included).

Power supply 100-240Vac, 50-60Hz (the type of power cable plug can be selected when ordering).

No front protection cover required: every panel complies with DIN 18032-3 and UNI 9554 standards on "Testing of safety against ball throwing".

Technical instructions in 5 languages. Supplied with brackets and plugs for wall mounting.

Each display can be used together with other models to create large displays showing multiple information.

8491		Pair of side statistics panels (side displays) for 12 players per team, displaying shirt numbers and players' personal fouls/penalties, dimensions 120x260x11.5cm, visibility at 70m, for professional scoreboards.
8492		Pair of side statistics panels (side displays) for 12 players per team, displaying shirt numbers, fouls/penalties and players' personal score, dimensions 120x260x11.5cm, visibility at 70m, for professional scoreboards.
8496		Pair of side statistics panels (side displays) for 14 players per team, displayinpg shirt numbers and players' personal fouls/penalties, dimensions 120x320x11.5cm, visibility at 70m, for professional scoreboards.

24-Second Shot Clock

24-second shot clock and game time display.

With game time display (00:00 - 99:59) and 24-second shot clock (0-99), an automatic light comes on when the time expires.

Equipped with an integrated horn that allows manual and automatic emission of a loud acoustic signal (120dB at 1m) at the end of the time, adjustable in duration and intensity.

Power supply 100-240Vac, 50-60Hz (the type of power cable plug can be selected when ordering).

Control via the command console (item 8485, not included), connectable via the supplied 50m serial cable or optional radio receiver (item 8489), which saves on cabling costs.

Each display can be used together with other models to create large displays showing multiple information.

8480

24-second shot clock. Display on 1 side only. FIBA approved, level 2. Electronic scoreboard suitable for basketball.

8481

24-second shot clock with game time. Display on 1 side only. FIBA approved, level 2. Electronic scoreboard suitable for basketball.

8482

24-second shot clock with game time. Display on 3 sides. FIBA approved, level 2. Electronic scoreboard suitable for basketball.

8483

24-second shot clock with game time. Display on 4 sides. FIBA approved, level 2. Electronic scoreboard suitable for basketball.

Professional Scoreboards

Professional multisport scoreboard, suitable for basketball, volleyball, futsal, handball, hockey, tennis, etc.

30 cm high digits to ensure visibility up to a distance of 130 m and a reading angle of 150 degrees.

We recommend installation in medium to large sports halls.

With game time display (00:00 - 99:59), team scores (0-199), period (0-9), bonus and timeout (using illuminated dots with a diameter of Ø8cm), and arrows indicating possession/serve/turn.

The control console (item 8485, not included) can set various operating modes depending on the selected sport: game and interval times, forward or backward counting, display of tenths of a second in the last minute of play, display of the time of day, etc.

Equipped with an integrated horn that allows manual and automatic emission of a loud acoustic signal (120dB at 1m) at the end of the time, adjustable in duration and intensity.

Power supply 100-240Vac, 50-60Hz (the type of power cable plug can be selected when ordering).

Control via command console (item 8485, not included), connectable via the supplied 50 m serial cable or optional radio receiver (item 8489), which saves on cabling costs.

Technical instructions in 5 languages. Supplied with brackets and plugs for wall mounting.

Each display can be used together with other models to create large displays showing multiple information.

8471

Professional multisport scoreboard with time, score, period, bonus, time-out indicators, arrows indicating possession/service/turn, dimensions 200x120x9cm, visibility at 130m., with the team name programmable.

8472

Professional multisport scoreboard with time, score, period, bonus, time-out indicators, arrows indicating possession/service/turn, team fouls/sets won, dimensions 200x180x9cm, visibility at 130m.

8470

Professional multisport scoreboard with time, score, period, bonus, time-out indicators, arrows indicating possession/service/turn, dimensions 200x120x9cm, visibility at 130m.

Semi-Professional Scoreboards

Semi-professional multisport scoreboard, suitable for basketball, volleyball, futsal, handball, hockey, tennis, etc.

15-25 cm high digits to ensure visibility up to a distance of 110 m and a reading angle of 150 degrees.

We recommend installation in small to medium-sized sports halls.

With game time display (00:00 - 99:59), team scores (0-199), period (0-9), team fouls or sets won (0-9), possession/serve/turn and timeouts using illuminated dots.

Clock function to display the time even when the console is disconnected.

The control console (item 8485, not included) can set various operating modes depending on the selected sport: game and interval times, forward or backward counting, display of tenths of a second in the last minute of play, display of the time of day, etc.

Equipped with an integrated horn that allows manual and automatic emission of a loud acoustic signal (120dB at 1m) at the end of the time, adjustable in duration and intensity.

Power supply 100-240Vac, 50-60Hz (the type of power cable plug can be selected when ordering).

The scoreboard must be used in conjunction with the control console (item 8485, not included), which communicates with the scoreboard via radio at 2.4GHz in FHSS (Frequency Hopping Spread Spectrum) mode, with spread spectrum and frequency hopping to avoid interference. Radio communication avoids the cost of laying a connection cable between the console and the scoreboards (optional cable available when ordering).

Technical instructions in 5 languages. Supplied with brackets and plugs for wall mounting.

Each display can be used together with other models to create large displays showing multiple information.

8433
