

Wall-mounted Basket and Minibasket System

Wall-mounted basketball system, fixed, without backboard reinforcement frame.

Wall-mounted basketball/mini-basketball system, fixed.
One system consists of two complete structures.

Painted tubular steel structure to be fixed with plugs, consisting of 4 braced trusses made of Ø50mm diameter tubing.

Available in three standard versions:

1. Item 4260: 165cm extension system, complete with wooden backboards measuring 180x105cm, basket rings and nets.
2. Item 4261: 160cm extension system, complete with resin backboards measuring 120x90cm, basket rings and nets.
3. Item 4262: customised extension system, complete with choice of accessories (backboard, ring, net, height adjustment device).

For item 4262, it is necessary to provide information on preferences, the size of the freespace (it is sufficient to indicate the distance between the anchoring wall and the baseline of the playground) and the stratigraphy of the wall for installation verification.

Visit our "[Basketball and Mini-basketball Systems](#)" section for more information.

Visit our "[Accessories for Basketball and Mini-basketball Systems](#)" section for more information about backboards, basket rings, nets, protections and more.
