

Foam rubber protection pad for indoor use, tringular-shaped 2m module.

Art. 9915

Protective and partitioning element, for gyms and indoor spaces.

Foam padding with a blue carbon-coloured PVC cover, complete with Velcro fastenings at the ends to allow multiple modules to be joined together.

Standard triangular-shaped module measuring 50 cm at the base and 70 cm in height, with a standard length of 2 m.

On request, the module can be customised in terms of shape, dimensions and colour, specifying the intended use.
