

Other Basketball or Mini-basketball Systems

Half basketball or mini-basketball system, foldable and portable on wheels, 120x90cm backboard, model Streetball.

Art. 4223

Half monotubular basket system, portable on wheels, height adjustable, foldable.

Single supporting structure with painted steel construction, fully assembled except for the backboard and basket ring.

The unit folds up to reduce its space requirement and is equipped with rubber wheels for easy movement.

It comes complete with front padding, a polypropylene backboard suitable for outdoor use measuring 120x90x5mm (with basket ring fixing holes with a centre distance of 110x90mm), basket ring and net.

The backboard and basket are fixed to a frame with a reinforcement plate to provide greater stability and solidity to the device.

Height adjustable to four predefined measurements: 240-260-270-305 cm (with variable extension between 48cm and 55cm).

The set requires a minimum ballast weight of 150kg (not included).
