

Other Basketball or Mini-basketball Systems

Half basketball or mini-basketball system, portable on wheels, freespace 60cm, 112x73cm backboard, model School.

Art. 4230

Half monotubular basket system, freespace 60cm, on a base with wheels.

Single structure consists of a galvanized steel support pole with a round section measuring $\varnothing 70\text{mm}$ in diameter and 3mm in thickness, which is fixed to a large, fully safety-compliant painted steel base measuring 100x120cm; the pole supports an articulated frame that allows the position of the backboard and basket ring to be moved to the desired height for basketball or mini-basketball, using a worm screw.

The base is ballasted and equipped with 4 self-locking wheels for easy transport.

The unit is completed with an American-style (oval) 112x73cm thermoset plastic backboard which is highly resistant and fully ribbed on the back to reinforce its solidity, including the basket ring and net (item [4056](#)).

Bar for regulate the hoop height included.

The unit has a 60cm extension and is height adjustable from 100 to 305cm.

All components are supplied disassembled to facilitate transport, during assembly you can choose the desired playing height minibasket / basket.

Visit our "[Basketball and Mini-basketball Systems](#)" section for more information.

Visit our "[Accessories for Basketball and Mini-basketball Systems](#)" section for more information about backboards, basket rings, nets, protections and more.
