

Wall-mounted Basket and Minibasket System

Wall-mounted basketball system, fixed, freespace 60cm, 112x73cm backboard.

Art. 4263

Wall-mounted basketball/mini-basketball system, fixed.
One system consists of two complete structures.

Single structure consists of a galvanised steel support pole with a round section measuring Ø70mm in diameter and 3mm in thickness, fixed using anchors specific to the type of wall (not included); the pole supports an articulated frame that allows the position of the backboard and basket to be moved to the desired height for basketball or mini-basketball, using a worm screw.

The unit is completed with an American-style (oval) 112x73cm thermoset plastic backboard which is highly resistant and fully ribbed on the back to reinforce its solidity, including the basket ring and net (item [4056](#)).

Bar for regulate the hoop height included.
