

Basketball and Minibasketball Height Adjustment Devices

Basketball and Minibasketball Height Adjustment Devices, for glass or plexiglass backboards.

Art. 4277

Device for adjusting the height from basketball to mini-basketball and vice versa.

Model for use with glass or plexiglass backboards.

Structure in tubular steel, hot-dip powder coated with epoxy paint, sliding parts and adjustment screw in galvanised steel. Control rod included.

Applicable to all our systems during construction. (Possible, but not recommended for outdoor use)

Visit our "[Basketball and Mini-basketball Systems](#)" section for more information.

Visit our "[Accessories for Basketball and Mini-basketball Systems](#)" section for more information about backboards, basket rings, nets, protections and more.
