

Equipment for Training and Playing Volleyball and Minivolleyball

Portable volleyball wall simulator made of light alloy, complete with padded protection.

Art. 5082

Portable volleyball wall simulator, useful for perfecting attacks, coverage and defence.

The equipment consists of a 30x30mm square section aluminium pole 2m in length and a 1,5m extension, which support the upper part made of aluminium with two sliding parts with padded bars that allow adjustment up to a maximum width of 1m.

The telescopic pole, which can be placed on the ground or held manually, allows the height of the wall to be adjusted.

Visit our '[Balls, Equipment for Training and Playing Volleyball and Minivolleyball and Other Accessories](#)' section for more information.
