Beach Volley and Beach Tennis Systems and Nets

Monotubular beach volleyball and tennis system, aluminum, round post Ø70mm, without sockets.

Art. 5513

Single-post beach volleyball system also suitable for beach tennis, with manually adjustable sliding mechanisms for positioning the net.

System comprising posts made of aluminum with a round cross-section of Ø80mm and a length of 3,6m.
Floor fixing by embedding in sand to a depth of 1 metre, without sockets.

Manual sliding mechanisms in galvanised steel with handwheel closure for adjusting the height of the net and net tensioner with strap for adjusting the tension of the net.
All net adjustment mechanisms are inside the pole, making the system completely safe.

Supplied with carabiners for attaching the net.

Available: wide selection of nets (visit the 'Beach Volley and Beach Tennis Systems and Nets' section).
Available: pair of system protection pads (item 5525).

Visit our 'Beach Volley - Beach Tennis' section for more information.
