

Equipment for Field Maintenance and Barrier Network

Battery-powered electric spray line marking machine, liquid paint, adjustable line width 0-20 cm.

Art. 6437

Battery-powered electric spray line marking machine, for non-toxic liquid paints to be diluted in water, suitable for all types of turf.

Composed of a painted tubular steel body and equipped with three wheels with a diameter of Ø26cm.

The electric diaphragm pump unit has two speeds, with a maximum pressure of 2.7 bar and a maximum flow rate of 1.9 litres/minute; the rechargeable battery (battery charger supplied) has enough power to track approximately 4 football pitches on a single charge.

The spray unit with brass nozzle is height-adjustable, and the side marking unit is made of galvanised steel and is manually adjustable in width (0-20 cm).

Motorised spray line marking machine is supplied with a user and maintenance manual and CE certificate of conformity.

Empty trolley weight: 20 kg.

Available: concentrated eco-friendly paint (item [6492](#)).

Visit our '[Balls, Training Equipments and Other Accesories for Football and Futsal](#)' section for more information.

Caratteristiche:

LINE WIDTH: Adjustable 0-20cm

TANK CAPACITY: 18 litres
