

Balls and Equipment for Training and Playing Football and Futsal

Steel frame with variable angle net for training. Dimensions 105x105cm.

Art. 6467

Equipment suitable for training football players and goalkeepers. The frame is made of galvanized steel and the angle of the net is adjustable to allow all types of exercises.

The net is attached to the frame by steel springs, providing elasticity and speed to the ball, making the exercise more efficient and functional.

Dimensions: 105x105 cm.
