24-Second Shot Clock

24-second shot clock with game time. Display on 4 sides. FIBA approved, level 2. Electronic scoreboard suitable for basketball.

Art. 8483

24-second shot clock with game time. 4-sided display.
Recommended sports: Basketball.

Functions displayed:

1. **24-second timer:** [0-99], 30 cm high digits, with display of tenths of a second.
2. **Game time:** [0:00 - 99:59], 14 cm high digits.
3. **Red light:** 8 cm diameter.

Dimensions: 72x60x72cm.
Weight: 38kg
Readability distance and angle: 130m for 24 seconds shot clock and 70m for game time, 360 degrees.

FIBA approved, level 2.

The **horn** allows manual and automatic emission of a loud acoustic signal (120dB at 1m), adjustable in duration and intensity, at the end of 24 seconds or at the end of the game. The sound of the horn is different from the one made by the game timer.
Red light with automatic activation at the end of the game time and 24 seconds.

No front protection cover required. Complies with DIN 18032-3 and UNI 9554 standards on "Testing of safety against ball throwing". In addition to saving on the cost of additional protection, full visibility is completely preserved and access to the scoreboard is easy.
It can be used together with other models to create large display boards that show multiple pieces of information.

Supplied with a serial cable to connect to the control console (item 8485, not included), 50 m long or chose different lengths available upon request. Alternatively, a radio receiver (item 8489, optional) is available, that allows you to save on the cable costs installation.
